- Special shots overhead kicks, scorpion, scissors, diving header, etc.
- Manage team formation and strategy, player changes and much more.

Overview

With Charrua Soccer, you can play and have fun with more pure arcade soccer. Forget about realism and perfect simulations, this is all about action and adrenaline!

Start with a friendly match or a challenging penalty duel, then move on to tournaments to show off your skills, as you win, you can unlock the most important competitions!

And if you're ready for a long-term challenge, create your own team from scratch and take it to glory in career mode. You'll start playing in league D, with a team of dogs that can barely run and kick the ball, but as you gain experience, you can improve your team, move up and reach league A and if you're really good, play for the international cup!

Mirror Online? yes! this is something new in football games... two simultaneous matches, one overall score! Control your local team and direct your remote team. The combined goals decide the winner!

A ranked game mode, in which while you directly control your local team, another version of your team, playing as the visitor, faces the opponent on the remote PC, following the strategy you define in advance. Both players will be aware of what happens in the remote match, even being able to view the replays of the best moments from each game.

As you play, you'll earn coins, which you can use in the store to purchase original items, such as balls, flags, stadiums, and also cosmetics for your players and teams... from unique hairstyles to a lion costume, anything is possible!

Who said soccer is a serious matter? Charrua Soccer is also ready to receive original themed events, where you will play with incredible characters and have fun with crazy game modes.

And if what you want is to have fun with friends and family, the party is waiting for you in a game mode made for playing at social gatherings.

Designed to entertain both casual and experienced players, Charrua Soccer adapts to each player, with two types of controls, configurable assist modes, and the ability to adjust the difficulty level to taste.

You can play in single player mode, or with up to 4 players in local multiplayer mode, or also online with Steam Remote Play Together... but you can also play in Mirror mode with 2 simultaneous online matches against another opponent... this can also be combined with Steam Remote Play... it's crazy!

And in any of the modes mentioned above, you can also choose to play in cooperative or competitive mode. Charrua Soccer is a fun and exciting way to experience arcade soccer!

Play Modes:
